Specker, Ernst.
DUALITY. [1961] 11p. 8 refs.
Order from SLA $1.60 61-20530

Trans. of Dialectica (Switzerland) 1958, v. 12, no. 3/4 p. 451-464.
Another trans. is available from ATS $18.00 as ATS-17N52G [1961] 11p.

DESCRIPTORS: *Scheduling, Theory.

The axiom system of plane projective geometry is dual in the sense that it is transformed into itself by exchange of the notions "point" and "line". It follows that for every theorem the dual sentence is also a theorem. However, from the duality of the axiom system one cannot conclude that in a model the truth of a sentence implies that of the dual sentence; even less can one conclude that each model admits a 1-1 transformation (Mathematics, TT, v. 6, no. 11) (over)
